

**Subject:** Workers Comp Pricing: Coverage Getting More Expensive as Market Shifts

## New Solution Arc Workers Comp Pricing: Coverage Getting More Expensive as Market Shifts

Explore our latest Workers Comp Solution Arc:

[Workers Comp Pricing:  
Coverage Getting More Expensive as Market Shifts](#)

Employers are facing increasing costs for workers compensation coverage, while insurance underwriters are less willing to offer guaranteed-cost policies, which cap an employer's premiums regardless of adverse loss experience. In our latest Solution Arc, "[Workers Comp Pricing: Coverage Getting More Expensive as Market Shifts](#)," *Business Insurance* examines rising insurance policy prices and shrinking availability, the best methods for optimizing coverage programs in challenging market conditions, and practices proven to reduce workers compensation costs.

*This Solution Arc is designed to help employers develop strategies and best practices for handling the increasing costs of workers compensation coverage. To provide feedback on this Solution Arc, including workers compensation challenges your organization is facing, contact Workers Compensation Channel Editor Roberto Cenicerros at [rceniceros@businessinsurance.com](mailto:rceniceros@businessinsurance.com).*

### **What is a Solution Arc?**

Solution Arc is the label for a unique structure within BusinessInsurance.com's online channels for organizing information about key business challenges. The problem-solving Solution Arc organizes multiple articles to take readers along a path from identification to solution of an issue. Content for the Solution Arcs includes staff-written articles, research and analysis from industry experts, links to other relevant online resources and multimedia features. Solution Arcs offer strategies and solutions to help you tackle some of the most critical challenges facing businesses today. After a period of time online, Solution Arcs are transformed into enhanced theme issues in print and also may be published as whitepapers for sale online. [See all of our Solution Arcs.](#)
